

The stats:

The two zones that I have outside of the core area are Zone 1855 (Blackstone to Maroa, Gettysburg to Ashlan) and Zone 1753 (Palm to Fruit, Shaw to Gettysburg), the core area covers Zones 1754, 1854 & 1954 (Shaw to Dakota, Maroa to Palm). I do not have the stats for other areas in the proposed annexation area. I am using information that is available to me. Zone 1753 includes one school within the zone and one on the other side of Gettysburg just outside the zone. Both Zones 1855 and 1753 include apartments. The core (Zones 1754, 1854, & 1954) do not have any schools or apartments. Because of the low crime rate in the area in general I was unable to find any crimes against people in any area for the months reviewed. So I divided the calls up by priority, an explanation of the three priorities are below. In all of the stats that I looked at there is not one Priority 1 call in any area for the period. I took all of the Priority 2 and 3 calls from Zones 1855 and 1753 and added them together. I then took all of the Priority 2 and 3 calls from Zones 1754, 1854 and 1954 and added them together, divided them by 3 (for the calls per zone) then multiplied the number by 2. This way we are comparing apples to apples. Below are the results that I got:

Priority 2 calls are 52% higher in the core than Zones 1855 and 1753.

Priority 3 calls are 22% lower in the core than Zones 1855 and 1753.

There is one item that sticks out and that is calls narcotic violations are 233% higher in the core than in Zones 1855 and 1753.

Most of the core area are large houses with fenced yards. In the proposed annexation area most of the houses are smaller homes and residents park in their driveway and on the street, so one could expect to have a more vandalism in the areas where people are parking on the streets. As for the narcotics calls, well that could explain itself.

Call Priority:

Priority 1 calls: These are emergency calls for service. These calls require an immediate response for the protection of life or property including all IN Progress person or property crimes and specific emergency, high risk, self-initiated traffic. These calls must be dispatched within 3 minutes after the call for service is received. Some Priority 1 calls include; Armed Robberies, Assault with a Deadly Weapon, Brandishing Firearm, Shots Fired, Homicide, Kidnap, Rape.

Priority 2 calls: These are urgent calls for service. These calls are without immediate threat to life or property. Urgency does not exist, however, a response should be made as soon as possible or practical. Some Priority 2 calls include: Vehicle Accident Non injury, Identity Theft, Missing Person, Narcotics Violation, Noise Nuisance, Public Hazard.

Priority 3 calls: These are nonemergency calls for service, no urgency exists requiring immediate response for protection of life or property. Some Priority 3 calls include: Animal complaints, Lost/Found Property, Neighborhood Watch Meeting, Patrol Checks, Petty Theft, Vandalism.

The reports I used are below.
